This poultry debeaker is designed for beak-trimming work in livestock farms. Its practical structure is intended for reliable day-to-day operation.

## Features

- Purpose-built structure for routine use as a poultry debeaker.
- Simple construction supports convenient installation, operation and maintenance.
- Designed for regular use in livestock-production environments.

## Advantages

- Improves day-to-day operating efficiency.
- Reduces manual workload and repetitive handling.
- Suitable for routine use in commercial and large-scale livestock operations.

## Description

Suitable for beak-trimming work for chickens, poultry. Inspect the tool and working surfaces before use and clean or disinfect them as appropriate. Operate with suitable restraint and trained handling practices, then clean, dry and store the tool after use.
