

Explosion-Proof Filter - Export Model

Export-type blast-proof filter (6 minutes-25 tubes)

Product code	202
Specification code	2023
Primary category	Feeding and Drinking Systems
Secondary category	Water Medication Systems

This heavy-duty water filter is designed for animal drinking-water management, water-supply management, water filtration and equipment protection in pig farms, poultry farms. Its practical structure is intended for reliable day-to-day operation.

Features

- Specification: 6 25 pipe.
- Filtration helps reduce debris entering downstream equipment.
- Purpose-built structure for routine use as a heavy-duty water filter.
- Simple construction supports convenient installation, operation and maintenance.

Advantages

- Improves day-to-day operating efficiency.
- Simple maintenance helps lower routine service requirements.
- Stable construction supports reliable routine operation.

Description

Suitable for animal drinking-water management, cleaning and sanitation work, water filtration and equipment protection in livestock farms. Confirm that pipe sizes, water supply and connections match the installation requirements. Check for leaks and proper flow after installation, and clean water-contact parts regularly to maintain hygienic and stable operation. Final dimensions, configuration and operating limits should be confirmed against the actual ordered product.
