This poultry feeder is designed for animal drinking-water management, water-supply management in livestock farms. Its practical structure is intended for reliable day-to-day operation.

### Features

- Purpose-built structure for routine use as a poultry feeder.
- Simple construction supports convenient installation, operation and maintenance.
- Designed for regular use in livestock-production environments.

### Advantages

- Improves day-to-day operating efficiency.
- Reduces manual workload and repetitive handling.
- Stable construction supports reliable routine operation.
- Flexible operation makes the product easier to use in different farm areas.

### Description

Suitable for animal drinking-water management, water-supply management, cleaning and sanitation work for chickens. Confirm that pipe sizes, water supply and connections match the installation requirements. Check for leaks and proper flow after installation, and clean water-contact parts regularly to maintain hygienic and stable operation.
