

Intestine Cleaning Machine

304 stainless steel intestine scrubber 1.25 m (with slots)

Product code	027
Specification code	0275
Primary category	Manure and Waste Management
Secondary category	Animal Carcass Disposal Equipment

This intestinal cleaning machine is designed for cleaning and sanitation work in processing and slaughter areas. It uses stainless steel construction or components suited to routine farm use.

Features

- Material: stainless steel.
- Corrosion-resistant construction is suited to humid livestock environments.
- Purpose-built structure for routine use as a intestinal cleaning machine.
- Simple construction supports convenient installation, operation and maintenance.

Advantages

- Improves day-to-day operating efficiency.
- Reduces manual workload and repetitive handling.
- Easy cleaning supports better hygiene management.

Description

Suitable for water-supply management, cleaning and sanitation work for pigs. Confirm that pipe sizes, water supply and connections match the installation requirements. Check for leaks and proper flow after installation, and clean water-contact parts regularly to maintain hygienic and stable operation. Final dimensions, configuration and operating limits should be confirmed against the actual ordered product.
