

Sow Breeding Stand

Sow Breeding Stand

Product code	028
Specification code	0281
Primary category	Veterinary and Breeding Equipment
Secondary category	Artificial Insemination Equipment

This sow breeding stand is designed for artificial insemination and breeding management, semen collection procedures in pig farms. It uses galvanized finish construction or components suited to routine farm use.

Features

- Material: galvanized.
- Dimensions: 1.15m.
- Height: 115cm, 50cm.
- Material: galvanized finish.
- Corrosion-resistant construction is suited to humid livestock environments.
- The surrounding rail structure helps keep animals positioned during operation.

Advantages

- Simple maintenance helps lower routine service requirements.
- Stable construction supports reliable routine operation.
- Supports efficient day-to-day livestock management.
- Practical construction simplifies routine operation and maintenance.

Description

Suitable for artificial insemination and breeding management, semen collection procedures in pig farms. Keep all product-contact parts clean and hygienic before use, and operate according to standard breeding or artificial-insemination procedures. Clean, disinfect or replace components as appropriate after use and store them in a clean, dry condition. Final dimensions, configuration and operating limits should be confirmed against the actual ordered product.

Technical parameters

Material	Hot-dip galvanized steel, 2.0 mm thick
Dimensions	1.6 × 50 × 115 cm
