

Sow Breeding Stand

Shellows with a 1.6m + small slab

Product code	028
Specification code	0283
Primary category	Veterinary and Breeding Equipment
Secondary category	Artificial Insemination Equipment

This sow breeding stand is designed for artificial insemination and breeding management in pig farms. Its practical structure is intended for reliable day-to-day operation.

Features

- Length: 160cm.
- Width: 50cm.
- Height: 50cm, 115cm.
- The surrounding rail structure helps keep animals positioned during operation.

Advantages

- Simple maintenance helps lower routine service requirements.
- Suitable for routine use in commercial and large-scale livestock operations.
- Supports efficient day-to-day livestock management.
- Practical construction simplifies routine operation and maintenance.

Description

Suitable for artificial insemination and breeding management for pigs, sows. Keep all product-contact parts clean and hygienic before use, and operate according to standard breeding or artificial-insemination procedures. Clean, disinfect or replace components as appropriate after use and store them in a clean, dry condition. Final dimensions, configuration and operating limits should be confirmed against the actual ordered product.

Technical parameters

Material	Hot-dip galvanized steel, 2.5 mm thick
Dimensions	160 × 50 × 115 cm
