

Temperature-Controlled Chick Brooder

Control the temperature-growing umbrella.

Product code	437
Specification code	4371
Primary category	Environmental Control Equipment
Secondary category	Heating and Insulation Equipment

This temperature-controlled brooder canopy is designed for young-animal warming and thermal management for chickens, ducks, geese, poultry. Its practical structure is intended for reliable day-to-day operation.

Features

- Purpose-built structure for routine use as a temperature-controlled brooder canopy.
- Simple construction supports convenient installation, operation and maintenance.
- Designed for regular use in livestock-production environments.

Advantages

- Improves day-to-day operating efficiency.
- Reduces manual workload and repetitive handling.
- Suitable for routine use in commercial and large-scale livestock operations.

Description

Suitable for routine use in poultry houses, duck houses. Check the product, installation points and connecting components before use. Operate according to the selected model and farm procedure, clean the equipment regularly, and replace worn parts when necessary.
