

Feeder

Efficiency hosting of feed feed (8 ppm)

Product code	456
Specification code	4562
Primary category	Feeding and Drinking Systems
Secondary category	Automatic Feeding Systems

This livestock feeder is designed for livestock feeding management, feed handling and feeding management in livestock farms, pig houses, poultry houses. Its practical structure is intended for reliable day-to-day operation.

Features

- Automatic operation helps reduce repetitive manual work.
- Purpose-built structure for routine use as a livestock feeder.
- Simple construction supports convenient installation, operation and maintenance.
- Designed for regular use in livestock-production environments.

Advantages

- Improves day-to-day operating efficiency.
- Reduces manual workload and repetitive handling.
- Stable construction supports reliable routine operation.
- Suitable for routine use in commercial and large-scale livestock operations.

Description

Suitable for feed handling and feeding management in pig farms, poultry houses. Install the unit securely according to the feeding-system layout and avoid overloading or blockage. Remove residual feed and inspect moving or connecting parts regularly to maintain stable operation.
